ALGO

ADVANCED MUSCLE STIMULATION DEVICE FOR A NATURAL FIRMING AND FACIAL CONTOURING EFFECT WITH EMS AND RF TECHNOLOGY

Exclusive Series

Discover
Neno Beauty Algo

Say STOP to sagging skin, loss of facial contour, and wrinkles that become more visible over time. It's time to level up your skincare. It's time for technology. Neno Beauty Algo is an advanced firming device combining EMS and RF – working exactly where aging begins. EMS activates and stimulates muscles, restoring their tone. The face appears more lifted, contours become sharper, and the facial oval more defined. RF technology supports skin regeneration processes, improving density, firmness, and elasticity. The skin regains its resilience, and wrinkles become less visible. Non-invasive, painless, with no downtime. After just the first treatments, the skin looks tighter and smoother. Its firmness, elasticity, and facial contour improve. It's not about changing your features – it's about restoring what time has gradually diminished.

Exclusive Series

Recommendations for *Neno Beauty Algo*

- *loss of firmness and skin laxity, sagging cheeks*
- *deepening folds*
- *wrinkles around the eyes and mouth*
- *loss of a defined jawline*
- *reduced skin density*
- *need for a natural, radiant glow*

Exclusive Series

Results of using
Neno Beauty Algo

After 7 days – *I can feel my skin working!*

- *skin tightening effect*
- *freshness and smoothness*
- *improved microcirculation*
- *more rested facial appearance*

The skin begins to respond – this marks the start of a genuine transformation.

After 14 days – *is this a lift already?*

- *visible improvement in firmness thanks to RF*
- *more toned muscles thanks to EMS*
- *smoother skin*
- *more defined facial contour*

The anti-ageing effect is becoming more powerful.

After 30 days – *transformation!*

- *improved skin structure and cohesion*
- *non-invasive contour redefinition*
- *improved quality, density, and tone*
- *less visible wrinkles*
- *slimmer, more sculpted facial appearance*

Professional RF + EMS technology in a home-use device.

Three levels *of perfection*

Neno Beauty Algo is not just one treatment – it's a complete rejuvenation strategy in a single device. You decide what your skin needs today:

EMS Mode (facial fitness): an instant workout for your facial muscles that lifts and sculpts your contours, delivering a "wow" effect just in time for your big moment.

RF + Yellow LED Mode (glow & renewal): a gentle warmth of radio waves combined with the energizing power of yellow light helps fade signs of fatigue and restores a smooth, healthy-looking complexion with a natural glow.

EMS + RF + Red LED Mode (total anti-aging): the most powerful combination targeting wrinkles at their source, stimulating collagen production, improving skin density, and delivering a visibly lifted, firmer, and more youthful appearance over time.

Exclusive Series

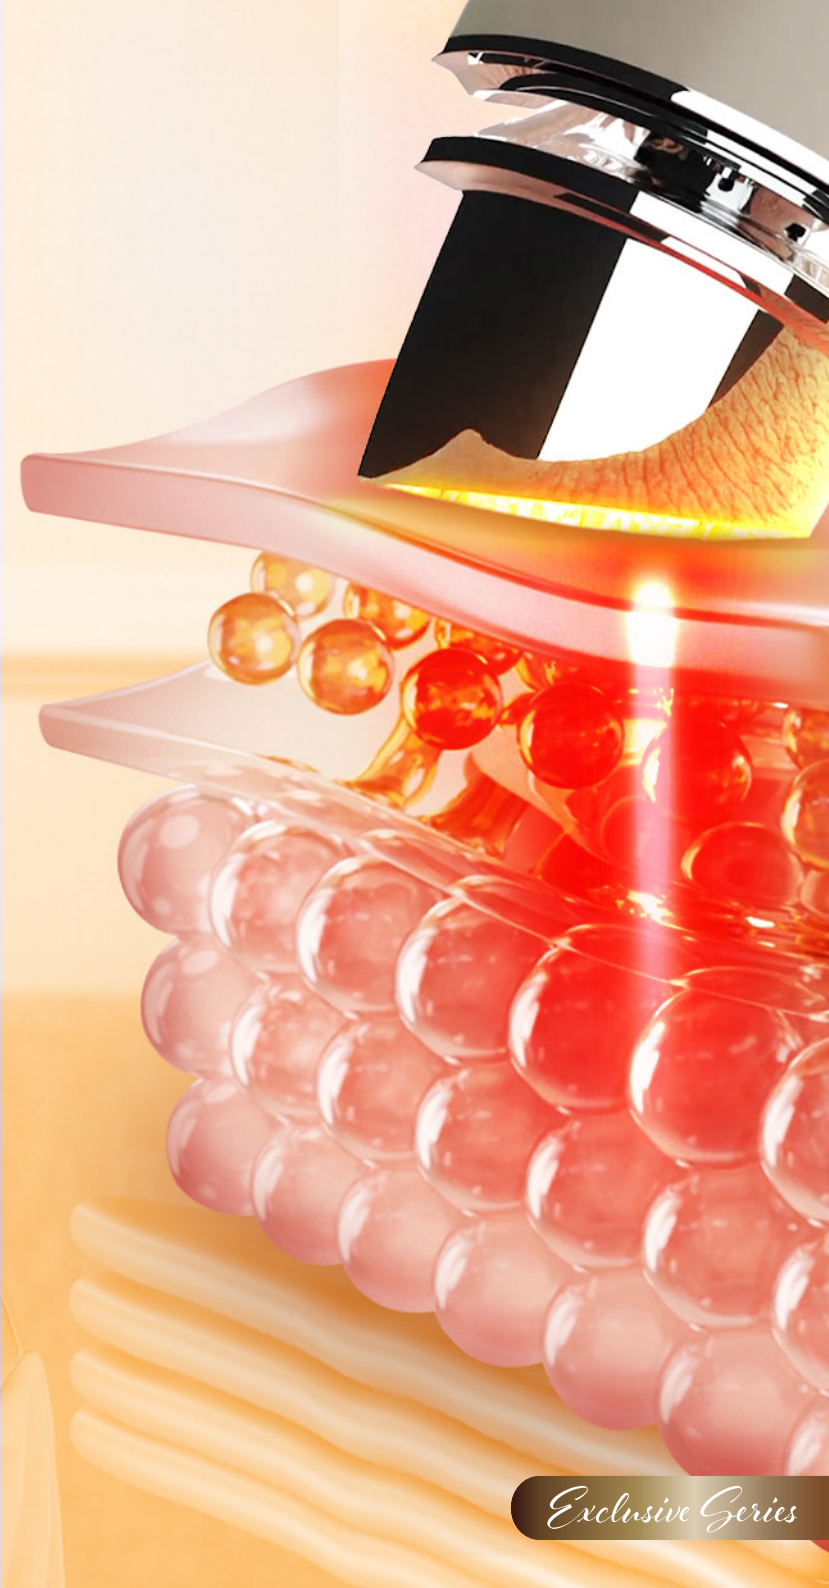

Muscle stimulation *for firming*

Neno Beauty Algo uses EMS technology (Electrical Muscle Stimulation) to gently activate facial muscles through subtle electrical impulses, triggering short, controlled contractions. This stimulation works like a targeted workout for your face—helping to restore firmness and support a smoother, more youthful-looking complexion. With two intensity levels, you can easily tailor the treatment to your comfort and individual needs.

Radio frequency *for lifting & firmness*

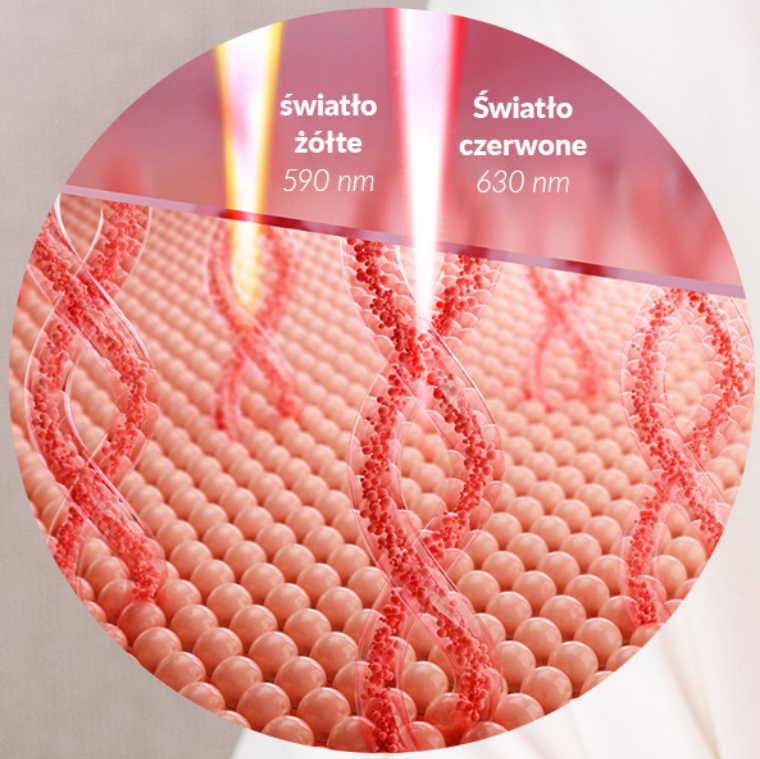

RF technology in Neno Beauty Algo uses 4 MHz radio waves that penetrate deep into the skin, generating gentle, soothing warmth. This process stimulates the skin's natural renewal mechanisms and boosts the production of collagen and elastin—key proteins responsible for firmness and elasticity. The treatment is non-invasive, leaving the skin's surface untouched, while delivering a pleasant, even heat that ensures comfort throughout the entire session.

Exclusive Series

Rejuvenating
LED light therapy

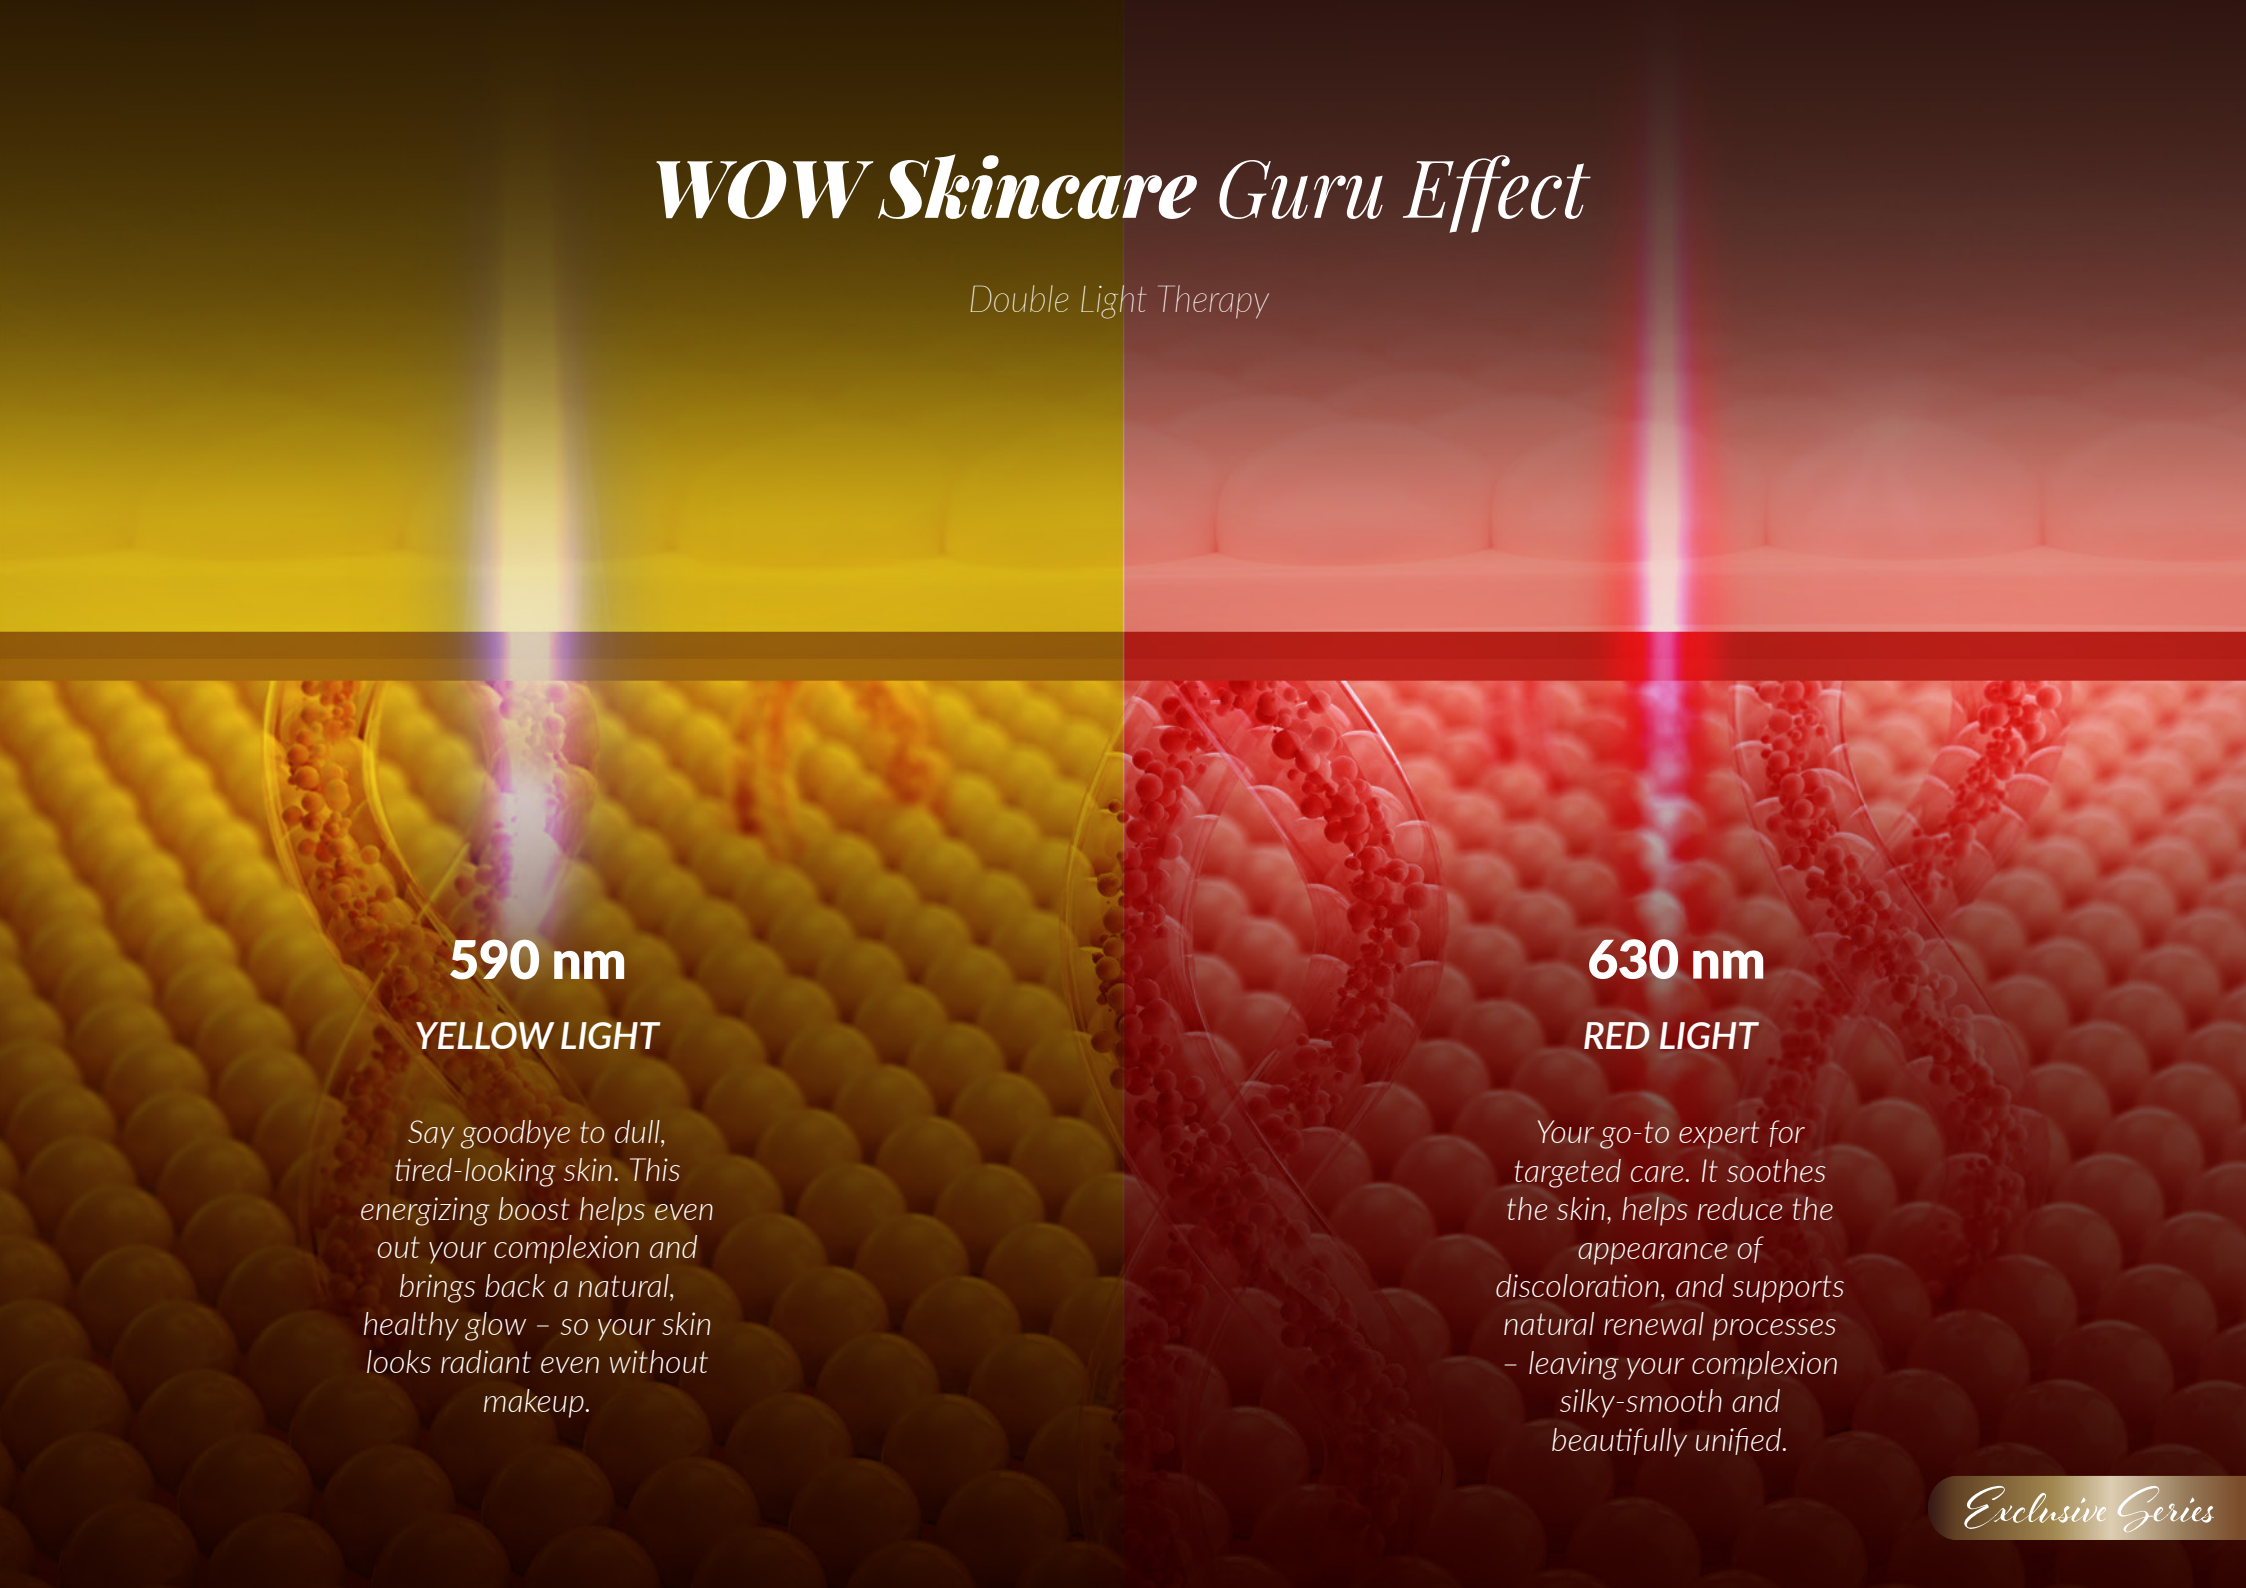

Neno Beauty Algo uses precisely selected LED wavelengths to deliver visible, skin-enhancing results. Red LED light (630 nm) supports the skin's natural regeneration processes, helping improve firmness and elasticity. Meanwhile, yellow LED light (590 nm) soothes the skin, promotes a more even tone, and restores a fresh, radiant glow, so your complexion looks healthier, smoother, and visibly revitalized.

Exclusive Series

WOW Skincare *Guru Effect*

Double Light Therapy

590 nm

YELLOW LIGHT

Say goodbye to dull, tired-looking skin. This energizing boost helps even out your complexion and brings back a natural, healthy glow – so your skin looks radiant even without makeup.

630 nm

RED LIGHT

Your go-to expert for targeted care. It soothes the skin, helps reduce the appearance of discoloration, and supports natural renewal processes – leaving your complexion silky-smooth and beautifully unified.

Exclusive Series

Enhanced
Contour & Firmness

The device comes with two interchangeable tips, so you can tailor your skincare routine to exactly what your skin needs. On one side, Neno Beauty Algo features diamond-shaped massage heads, while on the other, a flat tip with eight massage points. The diamond heads glide smoothly along the jawline and cheeks, and when combined with EMS mode, they stimulate facial muscles to help lift, sculpt, and define the V-contour—precisely where you want to see results. The flat tip with eight massage points emits red and yellow LED light, while sonic vibrations boost microcirculation and support skin firmness. For a more versatile and effective routine, alternate between the tips—so your skincare stays flexible, personalized, and results-driven.

Boost Elasticity & Skin Tone

The first mode combines EMS technology with a diamond head massage, delivering an effective way to achieve a firmer, more sculpted-looking face. Gentle impulses paired with mechanical massage help enhance muscle tone, define your natural contours, and restore your skin's youthful bounce.

Exclusive Series

Boost your skin's firmness

Neno Beauty Algo features an intensive regeneration and firming mode that combines EMS muscle stimulation with RF wave technology. Enhanced with red LED light (630 nm), sonic vibrations, and a flat tip with eight massage points, it works on multiple levels to visibly improve your skin. The result? Stronger facial muscles, stimulated collagen production, and noticeably firmer, more lifted skin.

Exclusive Series

Radiance and Revitalization

In the final mode, radiofrequency (RF) works in synergy with yellow LED light (590 nm), sonic vibrations, and a flat tip with eight massage points. The result is visibly brighter, revitalized skin, while stimulating collagen production at the same time. Gentle warmth supports cellular renewal, helping to firm the skin and improve its density and overall structure.

Exclusive Series

The art of at-home lifting — sculpt your facial contours

To achieve a visibly lifted, sculpted look, glide the Neno Beauty Algo from the center of your face toward the temples always working against gravity with gentle, upward motions. Remember, the secret to professional-level stimulation lies in proper glide, use a conductive gel or your favorite oil-free serum to help RF and EMS technologies penetrate deeper layers of the skin, ensuring maximum comfort and optimal results.

Exclusive Series

Intelligence *that understands your needs*

Forget about adjusting settings every time – Neno Beauty Algo learns you. With its memory function, the device restores your preferred settings exactly where you left off. One click is all it takes for your favorite routine to start instantly.

Exclusive Series

Your personal guardian
of time and precision

The built-in timer guides your treatment for you: after three minutes, it gently reminds you to switch sides of your face, and after six minutes, it signals the end of the session. This way, your skincare routine stays perfectly balanced, effortless and consistently effective.

Your Beauty Code
– the rules of a perfect ritual

Combine technologies for a WOW effect. The key to a radiant complexion is variety!
Use the interchangeable heads on alternate days – this will give your skin a rich array of stimuli without the risk of irritation. The optimal balance is 2–4 sessions a week, each lasting 6 minutes.

Focus on beauty (avoid obstacles).
Neno Beauty technology is powerful, so if you have electronic implants (pacemaker, pump), do not use this device. Avoid the areas around the face and neck if you have braces or dental implants. Do not use the device directly on the eyeballs, eyelids or thyroid gland. Always select the lowest intensity setting for the delicate areas around the eyes and mouth. During pregnancy and breastfeeding, take a break from using the device – this is a time for a different kind of regeneration; you can return to Neno technology when the time is right!

Become a Neno Beauty Expert.
The full potential of your device lies in the details. Before your first use, be sure to explore your Beauty Guide (user manual) to make the most of this professional beauty ritual.

Exclusive Series

Accessories included

The elegant set comes with protective covers for both massage heads, a storage pouch, and a microfiber cloth, ensuring maximum hygiene, convenience, and a premium user experience every time you use it.

Want to boost
your skincare results even further?

Start your routine with the **Neno Beauty Mica** *sonic brush to thoroughly cleanse your skin and perfectly prep it for the next steps. Then reach for Neno Beauty Algo to stimulate facial muscles and sculpt your contours, you'll feel your skin becoming firmer, tighter, and visibly more lifted.*
