Discover
Neno Beauty Alva

This is more than just a mask. It's an advanced, multi-level LED light therapy designed to work deeper, stronger, and faster than you expect. Neno Beauty Alva uses precisely selected light wavelengths to help reveal a more youthful-looking complexion. The light penetrates into deeper layers of the skin, activating renewal processes, improving tone, and smoothing texture. Red light helps restore firmness and elasticity, while blue light supports the reduction of imperfections. No pain. No downtime. No need to leave your home. While you rest, the light works. When you unwind after a long day, your skin activates its natural renewal mechanisms. Don't cover up fatigue with makeup. Don't wait for the signs of aging to deepen.

Exclusive Series

Recommendations for*Neno Beauty Alva*

- *Visible wrinkles and deepening lines that call for smoother, more youthful-looking skin*
- *Skin in poor condition – dry, dehydrated, dull, tired, and lacking vitality*
- *Noticeable loss of firmness, density, elasticity, and volume*
- *Clear signs of aging that you want to visibly reduce*
- *Uneven skin tone and a sallow, lifeless complexion*
- *Sagging skin in need of lifting and improved tension*
- *Tired, lackluster skin that needs a boost of radiance*
- *Skin craving a natural, healthy, radiant GLOW*

Exclusive Series

Effects of using
Neno Beauty Alva

After 7 days – my skin is glowing!

- visibly brighter complexion, reduction of dull, tired-looking skin tone, more even color
- less tightness, skin feels soft and comfortable
- improved skin density
- smoother, more uniform texture
- a natural healthy glow effect
Your skin looks more elastic, refreshed and "awake" – noticeably less tired.

After 14 days – fewer imperfections!

- firmer, more lifted-looking skin, with improved elasticity to the touch
- smoother skin texture
- reduced appearance of pores
- complexion looks fresher, more radiant and well cared for
- makeup looks better – foundation and concealer don't settle into fine lines or crease
Light technology works where traditional skincare needs support, revealing a new level of your skin's quality.

After 30 days – the best skin I've had in years!

- a renewed, healthy, natural glow
- next-generation light therapy – deeper skin density and elasticity that enhance your natural beauty without altering your features
- improved structure and firmness
- longer-lasting makeup that stays fresh for hours without separating
- visibly slowed signs of aging and reduced appearance of wrinkles
This is the moment when your skin looks better than ever before.

Exclusive Series

Four light *wavelengths*

470 nm

Blue Light – Clarity Zone

Mission: Perfect calm and balance.

Forget about unwanted surprises on your skin. Blue light becomes your ally in the fight against imperfections. It quickly soothes irritated, "angry" skin and helps regulate excess sebum. Think of it as a detox that restores calm, clarity, and a flawless-looking complexion.

630 nm

Red Light – Glow Boost

Mission: Skin full of energy and life.

Say goodbye to dull, tired-looking skin. Red light acts like a true power boost for your cells, stimulating microcirculation so your complexion instantly regains a healthy glow and vitality. It helps refine skin texture, leaving it visibly smoother, calm, radiant, and ready for any big moment.

660 nm

Deep Red – Youth Activation

Mission: The smooth "ironing" effect.

This is where the firming magic happens. This wavelength acts like an elasticity elixir, actively supporting the skin's structure, making it feel tighter, fuller, and more resilient. Fine lines appear visibly softened, while your skin regains that coveted "bounce" a youthful elasticity that turns heads.

850 nm

Near Infrared – Renewal Power

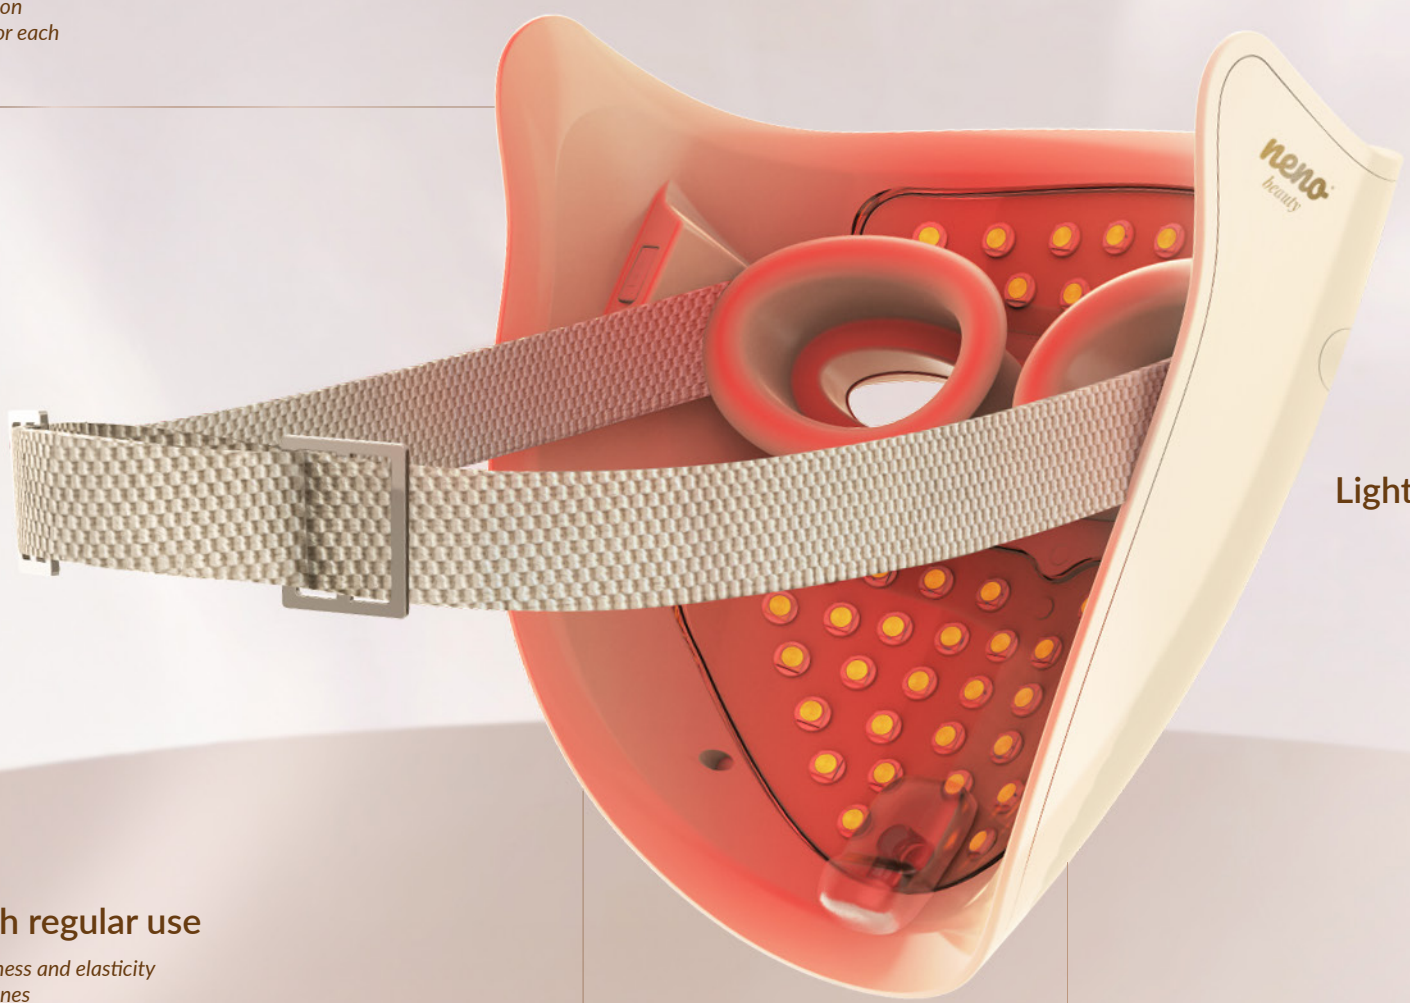

Mission: Total regeneration from within.

An invisible force that works deeper than any cream ever could. Near-infrared light is the foundation of healthy-looking skin. It stimulates renewal processes, helping your skin become firmer, velvety smooth, and beautifully refreshed—like after the best vacation of your life.

Why will your skin
fall in love with the Alva mask?

Alva is where advanced technology meets pure comfort. Powered by four precisely selected wavelengths, it works deep within the skin to awaken its natural glow. The result? Skin that feels firmer, plumper, and irresistibly smooth to the touch. Just 10 minutes of relaxation turns into a visible transformation, and that unmistakable wow effect.

Skin Recovery Boost Mode

SMOOTHING MODE

Soothing Mode is your skin's personal "reset button." Powered by precise blue light (470 nm), it targets the root causes of imperfections – not just the visible symptoms. This isn't ordinary light therapy – it's advanced technology that helps reduce breakouts, regulate excess sebum, and restore a clear, healthy-looking complexion. It's also the perfect go-to after a long day, when your skin needs instant calm, recovery, and a fresh, balanced glow.

Brightening Mode

Youth Duo (630 nm + 660 nm): the synergy of red and deep red light works like a true elixir for your collagen. It precisely targets uneven texture, leaving your skin looking oxygenated, smooth, and radiant—just like after a premium vitamin-infused spa treatment. Your complexion becomes firmer, tighter, and irresistibly soft to the touch.

Anti-aging Mode

Mission: Deep renewal, uncompromising firmness, and a true "time-freezing" effect. A powerful synergy of three wavelengths (630 nm, 660 nm, and 850 nm) works beneath the surface to visibly rebuild your skin from within. This advanced mode helps smooth the look of wrinkles, restoring a silky-soft texture while slowing down visible signs of aging. Your skin regains its natural density, resilience, and lifted appearance. This is more than care, it's a real

Full-Face Coverage — 220 LEDs

The Neno Beauty Alva mask is equipped with an impressive 220 LED light points, delivering truly comprehensive care. This high-density light distribution ensures full-face coverage, allowing every area of your skin to benefit from consistent, even, and intensive treatment. Each session works at maximum efficiency, giving your skin exactly the amount of light it needs to restore a healthy, radiant glow, effortlessly and effectively.

Timer

Neno Beauty Alva features a built-in automatic timing system that takes care of your session from start to finish. After a perfectly measured 10-minute light treatment, the device switches off on its own, so you can fully relax, knowing your skin is getting exactly what it needs, no more, no less.

Exclusive Series

Wireless freedom

Neno Beauty Alva's wireless design lets you seamlessly combine skincare with your everyday moments of relaxation. Its lightweight construction and secure, comfortable fit ensure effortless use, while USB-C charging means your mask is always ready for a quick 10-minute beauty session whenever you need it most.

Exclusive Series

Intuitive control
— one multifunction button

Start your treatment with a single press. Built-in voice prompts guide you through the selected program, so you always know you're using the right mode. Effortless, convenient, and designed to keep your routine simple and stress-free.

Exclusive Series

Comfortable, *effortless treatment*

Neno Beauty Alva is designed with your comfort and safety in mind. Soft silicone around the eye area gently adapts to your skin, while the flexible head strap ensures a perfect fit. The chin support keeps the mask securely in place, so you can enjoy a smooth, uninterrupted session.

Flexible, adjustable strap for a secure and comfortable fit

How to unlock *the full potential of your Neno Alva mask?*

Clean skin, better results

Start with perfectly cleansed and dry skin. This allows the LED light to reach deep into your skin cells, maximizing effectiveness and helping you see results faster.

Your moment to unwind

Use the mask 3–5 times a week for 10–20 minutes, choosing the mode that fits your needs. It's the perfect excuse to slow down, pair your session with a good book or your favorite podcast and turn skincare into a relaxing ritual.

Smart, mindful care

If you're undergoing intensive treatments with retinol or acids, give your skin a few days to recover before using the mask. Thoughtful care pays off, your skin will thank you for it. LED mask use during pregnancy is not recommended. Always consult your doctor before use if in doubt.

Before your first session

Take a moment to explore your Beauty Guide (user manual) and discover how to get the most out of this professional-level skincare experience.

Want to boost your skincare *results?*

For even better effects, start with the ***Neno Beauty Mica*** *cleansing brush before using your LED mask. Perfectly cleansed skin absorbs light therapy more effectively, enhancing the performance of Neno Beauty Alva and helping you achieve visible results faster.*
