Discover
Neno Beauty Auri

A lifting effect that enhances your facial contours.
This is not just an ordinary massager. It's a combination of 5 technologies designed to sculpt, firm, and rejuvenate your face and neck — without pain and without leaving your home.
EMS activates facial and neck muscles, restoring their tone and elasticity. Your contours become more defined, and your jawline sharper. Radio frequency (RF) waves intensely stimulate the skin's natural processes, making it denser and firmer. Red LED light (620 nm) supports regeneration and restores a healthy, even glow. Sonic vibrations boost microcirculation, reduce puffiness, and leave your face looking fresh — even after a sleepless night.
The ergonomic Gua Sha-shaped head perfectly adapts to the natural contours of your face and neck. It improves circulation, supports lymphatic drainage, and relaxes tense muscles. This is technology inspired by professional treatments, adapted for safe at-home use — all in one elegant device for everyday care.
You can't stop time, but you can decide how your face will look in a year.
Start your glow-up with Neno Beauty Auri today!

Exclusive Series

Recommendations for *Neno Beauty Auri*

- *Visible fine lines and expression wrinkles*
- *Skin around the eyes in need of firming*
- *Skin requiring a lifted, more defined contour*
- *Loss of jawline definition*
- *Loss of firmness in the neck and facial contour*
- *Dull skin lacking natural glow*

Exclusive Series

Effects of using
Neno Beauty Auri

After 7 days – is this really my skin?

– *smoother neck and décolleté*
– *initial tightening in the lower face*
– *improved elasticity*

After just one week, the skin looks more cared for and refreshed.

After 14 days – wow, that jawline!

– *improved facial contour*
– *visibly firmer skin*
– *younger-looking neck*

Contours become more defined. A noticeable smoothing of skin texture and a plumper appearance.

After 30 days – is this a treatment effect?

– *clearly firmer and tighter face and neck*
– *smoother wrinkles around the neck*
– *a slimmer, more balanced facial appearance*

A comprehensive rejuvenation effect that truly stands out.

Exclusive Series

5 w 1

Neno Beauty Auri is an intelligent system that adapts to your lifestyle and your skin's needs. This elegant massager combines sonic vibrations, red LED light, and EMS & RF technologies. Choose your daily ritual and watch your skin transform.

Its intuitive operation and handy design make it an easy way to enjoy a moment of relaxation and effective skincare at home.

Ergonomic Gua Sha-shaped massage head

The head is perfectly shaped to fit the contours of the face and neck

EMS (Electrical Muscle Stimulation)

Activates facial muscles, enhancing tone and elasticity

RF (Radio Frequency) technology

Stimulates collagen production, improving firmness and skin density

Red LED light

Supports skin regeneration, improves elasticity, and helps reduce the appearance of minor discoloration

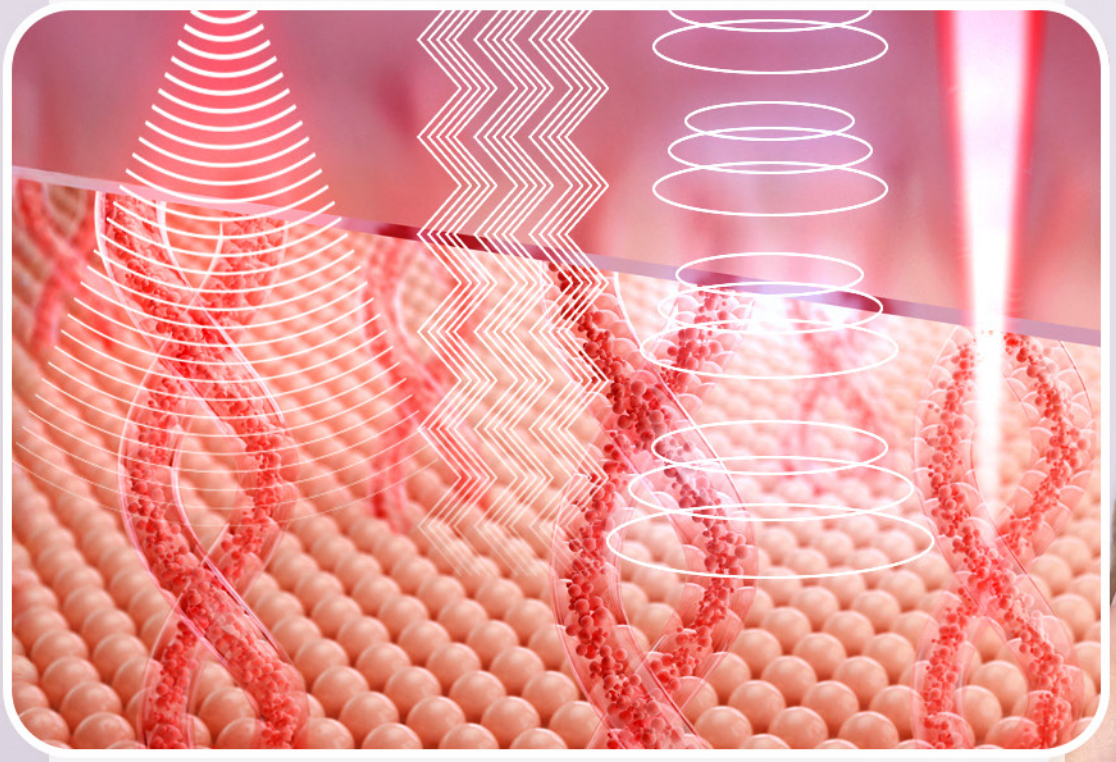

Sonic vibrations

Boosts microcirculation and improves skin firmness

2 modes:

1. Anti-aging mode – a combination of RF technology and sonic vibrations

2. Brighten mode – a combination of RF technology, EMS, red LED light, and sonic vibrations

Each mode offers two intensity levels, allowing you to adjust the treatment to your skin's sensitivity and current needs. A higher level means stronger sensations — if they feel too intense, simply move the head faster, apply a bit more gel, or take a short break. The ergonomic Gua Sha-shaped head perfectly adapts to the contours of the face and neck, ensuring a precise and comfortable massage.

EMS
a workout for your youthful look

Forget about sagging facial contours. EMS technology is an intelligent workout for muscles you can't train with a traditional massage. Gentle micro-impulses reach deep, activating facial structures instantly.

- *Effect? More defined cheekbones and a sharper, more sculpted jawline*
- *Sensation: A pleasant tingling — a sign your skin is "waking up" and returning to its best shape*

Exclusive Series

RF *(Radio Frequency)*

A true revolution in at-home lifting. Radio frequency at 1 MHz penetrates beneath the skin's surface, generating controlled heat that "reprograms" collagen fibers.

- *Effect? Skin becomes denser, firmer, and incredibly elastic from within — no needles needed*
- *Sensation: A soothing, deep warmth that wraps your skin in comfort — a luxurious regeneration you can feel in every layer*

Sonic *Vibrations*

Let your skin breathe out. Sonic vibrations are more than relaxation — they activate microcirculation and instantly reduce signs of fatigue and tension.

• Effect? Your complexion regains a healthy glow, puffiness is reduced, and you look refreshed — like after a long vacation

• Sensation: Gentle vibrations that bring immediate comfort and relaxation to your face

Exclusive Series

Red *LED Light*

This is not just ordinary light — it's concentrated regenerative energy that reaches where traditional skincare products can't.

- ***A biological "reset" for your skin cells:*** *Red light acts like a turbo boost, stimulating the production of new collagen and elastin*
- ***Goodbye dull, tired skin:*** *Forget discoloration and uneven tone. This technology helps reduce signs of photoaging, restoring a clear, even, and healthy glow*
- ***Real-life "Photoshop effect":*** *With regular use, the skin becomes denser and smoother. It's your daily dose of light that doesn't damage — it repairs and rejuvenates*

Ergonomic
Gua Sha-shaped head

Neno Beauty Auri is inspired by the traditional Gua Sha tool, used for centuries in Far Eastern skincare rituals. The ergonomic head perfectly adapts to the natural contours of the face and neck, allowing for a precise yet extremely comfortable massage.

Exclusive Series

Anti-aging mode

The first mode uses RF (radio frequency) combined with sonic vibrations. The massage creates a gentle warming sensation on the skin — a natural effect of radio waves that support regeneration, improve elasticity, and restore firmness. It helps smooth fine lines and enhances the overall condition of the skin.

Exclusive Series

Brighten Mode

The second mode combines EMS, RF, red LED light (620 nm), and sonic vibrations. EMS impulses activate facial muscles, improving tone — accompanied by a gentle tingling sensation. Red LED light supports natural regeneration processes, while radio waves and vibrations stimulate collagen production and firm the skin.

The art of lifting
– massage directions

Feel like a professional cosmetologist in your own bathroom. To achieve a visible lifting effect, glide Neno Beauty Auri in smooth movements: from the center of the face outward toward the temples, always moving upward. This is your way to defy gravity and restore a youthful "V-shape" contour.

Ensure perfect glide – the key to effective RF and EMS technology is conductivity. For optimal results, always use the device on hydrated skin. Apply a conductive gel or your favorite oil-free serum. This makes the treatment:

- *Extremely comfortable – the head glides smoothly, soothing and massaging the skin*
- *Highly effective – hydrated skin allows radio waves and microcurrents to penetrate properly*
- *Safe – protects the epidermis while focusing the device's power where it matters most: in the deeper layers of the skin*

Areas to avoid

Areas recommended for low-intensity use

Safety & hygiene tips

Contraindications:
Due to RF and EMS technologies, do not use the device if you have electronic implants (e.g. pacemaker), metal implants (e.g. orthodontic braces, dental implants), or during pregnancy and breastfeeding.

Use in moderation:
For best results, use the device 2–4 times per week for about 6 minutes. Give your skin time to regenerate — that's when the magic happens.

Tip:
For the full list of recommendations, refer to the user manual included with your Neno Beauty Auri.

Beauty *Intelligence*

Neno Beauty Auri is a device that learns your routine. Thanks to its smart memory function, the massager remembers the mode and intensity you loved during your last session. Just switch it on and go — no unnecessary clicking, no searching for settings. This is technology that adapts to you, not the other way around.

Only 6 minutes *for spectacular results*

Let your skincare routine take care of itself. The built-in timer ensures the perfect treatment rhythm: every minute, a signal reminds you to change the massage area, and after six minutes, it indicates the end of the session. This way, every treatment is even, effective, and fully comfortable.

Accessories included

Neno Beauty Auri comes with a magnetic protective cap that shields the head from dust and dirt, an elegant storage pouch for safe keeping between sessions, and a soft microfiber cloth for gentle cleaning.
